

# ATYS CONCEPT Becomes the Exclusive Distributor of Prosys OPC Solutions in France

March 3, 2025 – ATYS CONCEPT has partnered with Prosys OPC, a leading Finnish software company in IT/OT integration solutions, to become its exclusive distributor in France. This collaboration brings Prosys OPC's proven technologies to the French market, backed by ATYS CONCEPT's local expertise in industrial software, consulting, and training.

With over 25 years of experience in OPC Classic and OPC UA integration, Prosys OPC develops SDKs and no-code software that enable seamless communication between IT and OT systems. Since its founding in 1995, the company has been an active OPC Foundation member and at the forefront of industrial interoperability. In 2023, Prosys OPC launched Forge, a powerful No-code platform designed to collect, structure, and standardize OT data, making it easily accessible to IT systems.

ATYS CONCEPT has been distributing software solutions in supervision, maintenance management, and energy performance since 1996. As an expert in the products it distributes, ATYS CONCEPT is dedicated to providing a full range of services, including product support, project assistance, industry consulting, and training. These services help clients adopt and effectively use the solutions, enabling them to adapt to Industry 4.0 and smart building requirements.

By joining forces, ATYS CONCEPT and Prosys OPC provide French businesses with a comprehensive, expert-backed IT/OT convergence offering. ATYS CONCEPT, a trusted distributor of industrial software since 1996, will ensure local support, training, and consulting services, helping companies maximize the value of Prosys OPC's solutions.

This partnership is critical as French industries accelerate their digital transformation. By leveraging Prosys OPC's industry-leading software and ATYS CONCEPT's specialized services, companies can streamline data integration, enhance operational efficiency, and prepare for the future of Industry 4.0.
